INC. MAGAZINE RECOGNIZES CHMB AS BEST- RUN U.S. COMPANY

ESCONDIDO, California, August 19, 2009 – For the second consecutive year *Inc.* magazine recognized California Healthcare Medical Billing (CHMB) as an honoree in the *Inc. 5000* annual ranking of the best-run and fastest-growing private companies in America. CHMB provides medical billing and comprehensive technology services to the healthcare industry for physicians, clinics and multi-specialty organizations.

“We are honored to be recognized by *Inc.* magazine and placed alongside other entrepreneurial companies with significant accomplishments. We are proud of our employees who have continued to provide creativity, dedication and hard work that has gone into building CHMB into what it is today,” said Bob Svendsen, CHMB’s Chief Executive Officer.

CHMB was specifically acknowledged for having a strong middle management team which has allowed them to emerge as a cost-effective alternative in the highly fragmented market of mom-and-pop business process services for smaller independent California healthcare providers. *Inc. 5000* also felt it was noteworthy that about 80 percent of CHMB's staff is working mothers and since implementing technology has enabled employees to work from home, their productivity has increased by 20 percent.

About CHMB

CHMB, a leading provider of outsourced business services, was founded in 1995 to provide billing and other business services for medical practices. CHMB provides comprehensive technology services including application hosting for electronic health records (EHR); technical support and training; hardware and software selection; implementation and optimization; and network services.
