

CHMB Solutions to Partner with Dell

Escondido, California February 21, 2008. CHMB Solutions, California's leading provider of outsourced business and clinical solutions for physician practices has announced that it has been selected as a Premier Dell Partner. Dell Inc. (NASDAQ: DELL) listens to customers and delivers innovative technology and services they trust and value. Uniquely enabled by its direct business model, Dell is a leading global systems and services company and No. 34 on the Fortune 500.

As a Premier Dell Partner, CHMB will sell Dell products including desktop, workstation, notebook, wireless, server and peripheral hardware. CHMB will also sell software and other technical solutions benefiting from Dell's Premier product pricing. This partnership will enable CHMB to deliver the lowest possible pricing to its customers looking to upgrade or add to their office computing capabilities. This will nicely compliment CHMB's other business and clinical offerings including their ASP model offering of Touchworks-EHR from Allscripts. Touchworks is the award-winning Electronic Health Record software application that over 40,000 physicians are using to automate everyday clinical tasks such as prescribing and refilling medications, ordering and reviewing tests, and documenting patient care.

"Our customer's two most important resources are time and money" indicates Isaac Nye, CHMB's Director of IT. "If we can provide a single source solution at the lowest possible price for our customers, then they will know they can rely on us as their partner and advocate for business and clinical success".

As a Premier Dell Partner, CHMB and its customers will enjoy...

- Customized needs assessment
- Detailed product information
- Individualized and custom solutions
- Simplified low pricing
- Responsive support
